Xario 100G

Go Anywhere Anytime

Xario 100G

Ultra-fast
boot-up

Cable-free

Up to
4 hours*

Xario 100G combines outstanding mobility with complete functionality and a full range of proven applications in a small, versatile system. With up to 4 hours of battery, fast boot-up and its smart standby technology, the system is ideal for mobile work in a hospital or clinic.

More clinical detail in less time*

Only the best image quality allows you to make a diagnosis quickly and with confidence. Xario's imaging technologies provide you with excellent clarity and resolution by reducing noise, strengthening signal and improving visualization. Canon Medical Systems' distinctive iStyle+ Productivity Suite enables faster exams and greater productivity by minimizing keystrokes, improving workflow and raising the consistency of exams.

Versatility in every aspect

From imaging to quantification, from reporting to archiving, Xario offers an integrated full-spectrum solution that helps you manage your study data and reports efficiently directly on the console.

Enhanced clarity for better clinical results

Xario 100G offers a wide range of clinically proven imaging options to ensure outstanding clarity and detail in a wide range of clinical settings. Advanced tools provide deeper clinical insights whenever you require.

Transducers for confident diagnostics

From standard models to specialty probes – all of Xario's transducers deliver superb image quality and respond with flexibility to a wide range of clinical applications.

Designed to minimize operator stress and to increase efficiency, Xario's lightweight transducers feature outstanding clinical versatility, ergonomic shapes and thin, super-flexible cables.

Fully customizable console

Xario's console and mode-sensitive touch screen suit your clinical needs and personal preferences simply by allowing you to assign functions to the keys of your choice.

Instant image optimization

QuickScan automatically optimizes the image with a simple push of a button so you can achieve greater consistency in your exams in less time.

Reduce keystrokes, shorten exam time

Xario's new Quick Start menu helps you adjust the imaging parameters to any specific clinical target while enabling a smooth, uninterrupted workflow.

Better ergonomics for your workplace

Every aspect of Xario 100G has been optimized to deliver better image quality and workflow. The system's outstandingly compact and mobile design enables you to create an ergonomic work environment in virtually any clinical setting.

Powerful battery, cable-free operation

Up to four hours of battery life offers you the freedom to move cable-free through the hospital, clinic or department, maximizing productivity at every examination.

Energy-efficient design

With its presetable auto-freeze and auto-standby modes, Xario g-series can help you save valuable battery time automatically when the system is not in use.

Cable management

Xario's smart cable management system helps you make an end to tangled wires and lets you move the system easily and safely.

Exporting your clinical data

Xario ships standard with a DVD writer, as well as network and USB connections for study documentation, storage and data export.

Reporting options

Xario provides comprehensive onboard facilities to generate and print customizable reports including measurements, charts, clinical images and text.

Managing your study data

Xario's fully integrated patient and image management system allows you to review and manage your studies conveniently on the system.
